

# Facts About Possums

A photograph of several opossums perched on a tree branch. The opossums are grey and white with black ears and faces. They are looking towards the camera. The background is a blurred green forest. A semi-transparent dark grey box is overlaid on the image, containing white text.

One opossum eats up to 5,000 ticks a year and does not contract or carry Lyme disease.

A photograph of a mother opossum and her young joeys on a tree branch. The mother is in the foreground, looking towards the camera. Several small joeys are clinging to her back. The background is a blurred green forest. A semi-transparent dark grey box is overlaid on the image, containing white text.

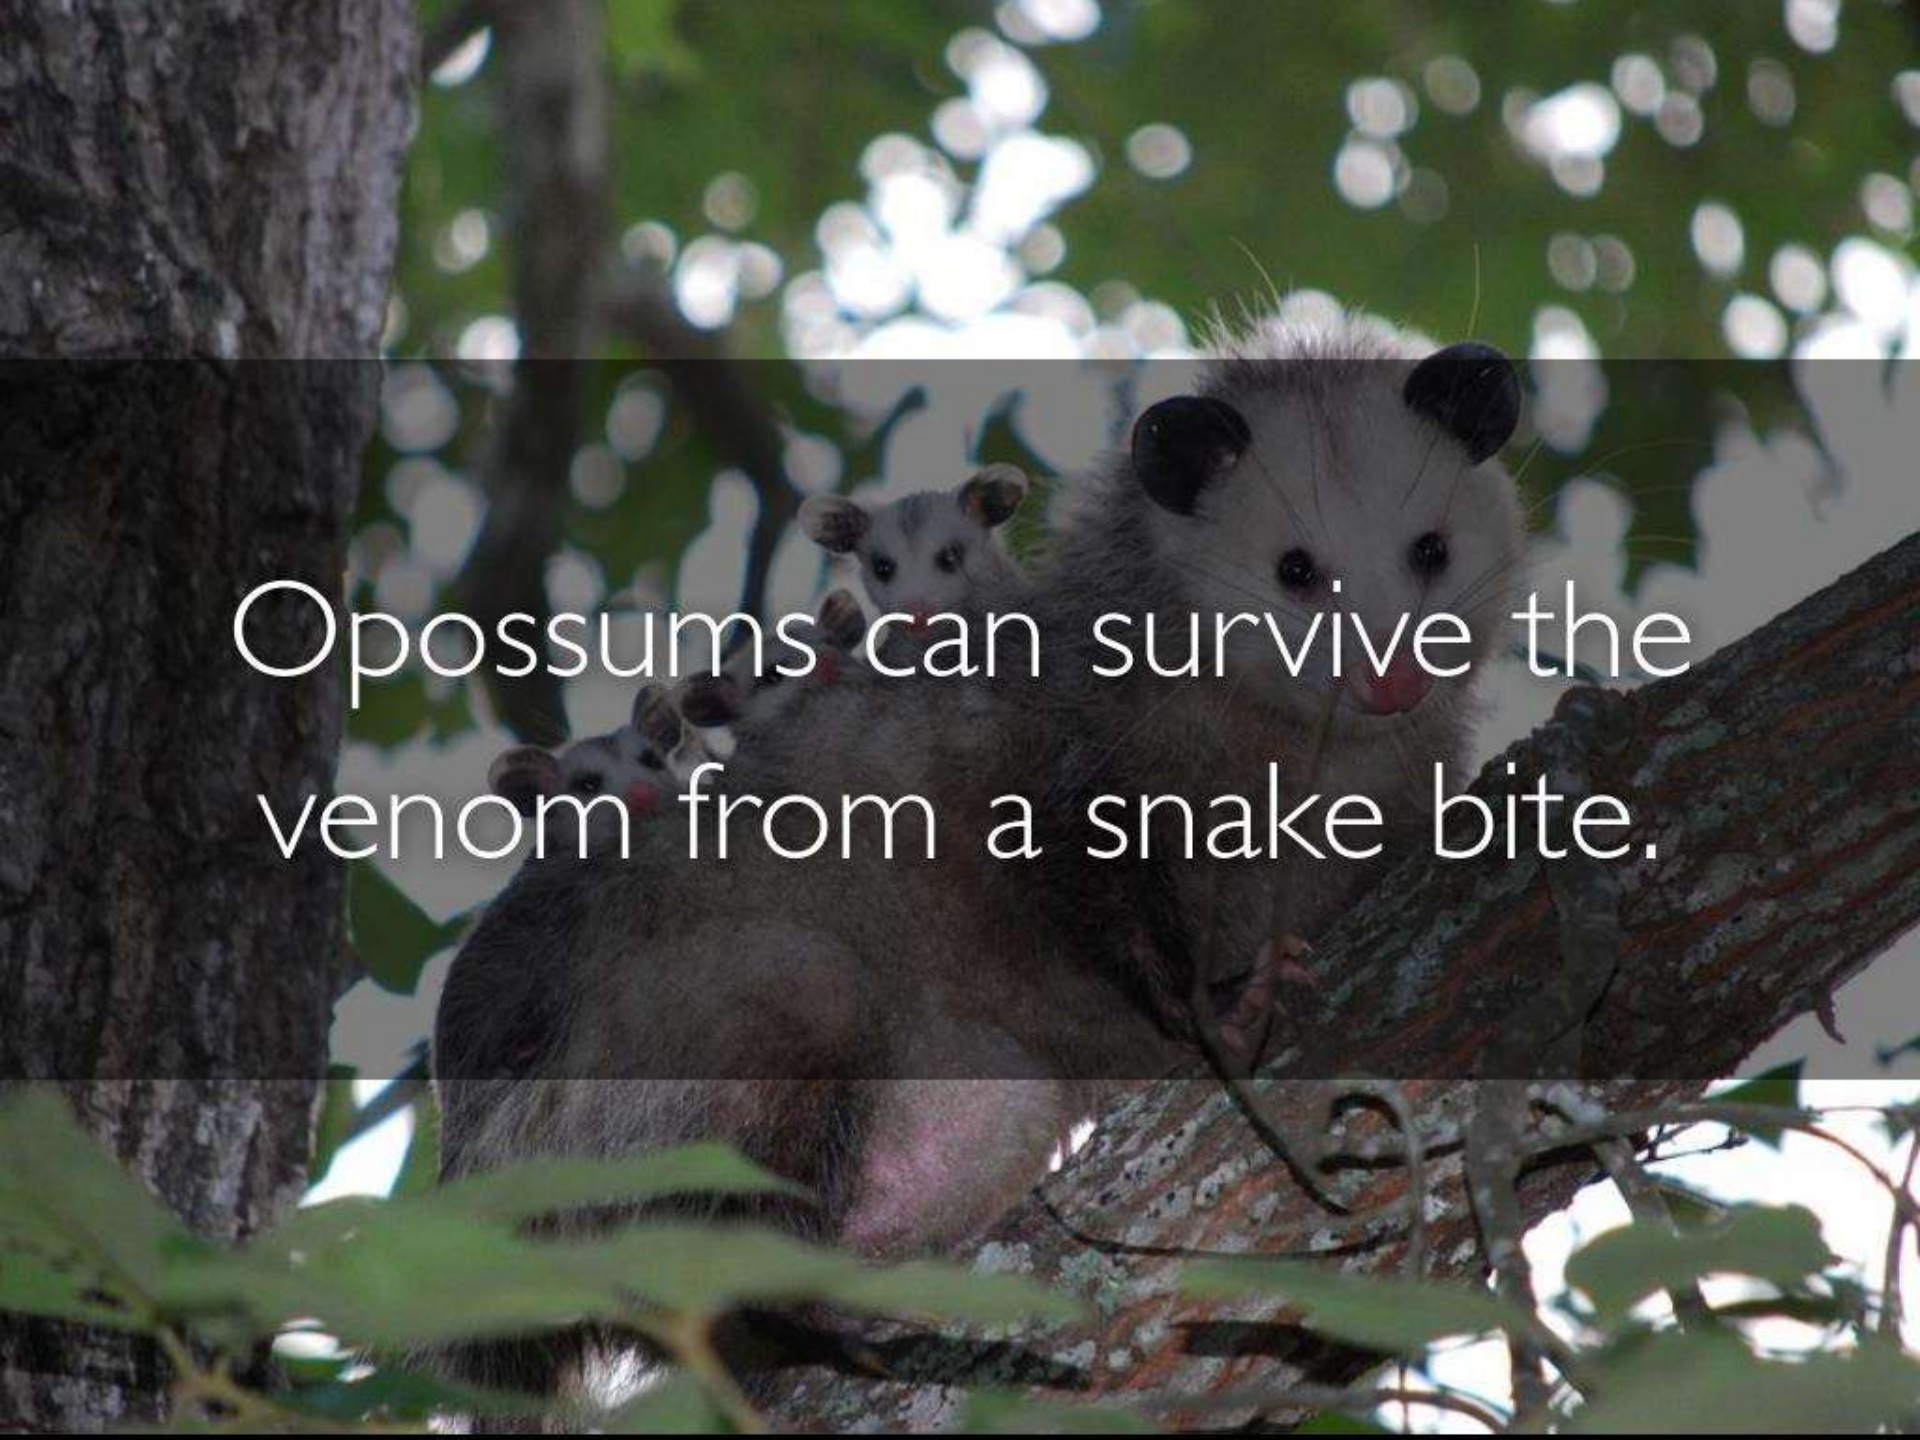

95% of Opossums are naturally immune to rabies.

A photograph of a possum and its young in a tree. The adult possum is perched on a thick, textured tree branch, looking towards the camera. It has greyish-brown fur, a pink nose, and dark, round eyes. Several small, fluffy young possums are clinging to its back. The background is a soft-focus green, suggesting a dense forest. A semi-transparent dark grey horizontal band is overlaid across the middle of the image, containing white text.

Possums are North America's  
only Marsupial.

A photograph of a mother opossum and her young joeys on a tree branch. The mother is in the center, looking towards the camera. Several small joeys are clinging to her back and chest. The background is a soft-focus green forest. A semi-transparent dark grey bar is overlaid across the middle of the image, containing white text.

Opossums can survive the  
venom from a snake bite.

A photograph of a mother opossum and her young pups perched on a tree branch. The mother is in the foreground, looking towards the camera. Several small pups are visible behind her, some looking out. The background is a soft-focus green forest. A semi-transparent dark grey bar is overlaid across the middle of the image, containing white text.

Opossums eat insects, snails,  
small rodents & dead stuff.

The background is a soft-focus green forest. A semi-transparent dark grey horizontal bar is overlaid across the middle of the image, containing white text.

Opossums are nature's pest control & cleanup crew.

A photograph of a mother opossum and her young joeys on a tree branch. The mother is in the foreground, looking towards the camera. Several small joeys are clinging to her back. The background is a soft-focus green forest. A semi-transparent dark grey bar is overlaid across the middle of the image, containing white text.

Opossums may not be cute, but they are more scared than scary!

A photograph of a group of opossums in a tree. One large adult opossum is perched on a thick tree branch, looking towards the camera. Several smaller, fluffy young opossums are clustered around it, some appearing to be climbing or clinging to the adult. The background is filled with green leaves and branches, creating a bokeh effect. A semi-transparent dark grey horizontal band is overlaid across the middle of the image, containing white text.

If you see one, please ignore -  
they mean no harm!
